

MODEL: HA-GB-230B [Name: Multifunctional eight-in-one gas detector]

MODEL: HA-GB-230B Name: Name: Multifunctional eight-in-one gas detector	
DETECTION MODE:	Pump suction type
SENSORS DETECTION PRINCIPLE:	Electrochemical/catalytic/thermal conductivity/infrared/PID
ACCURACY:	±3% FS
BATTERY:	Lithium battery DC7.4V 2800mA
STANDBY TIME:	More than 8 hours
ALARM:	Three-level alarm of sound, light and vibration
STORAGE:	300,000 storage records
OPERATING TEMPERATURE:	(-20℃~55)℃
OPERATING HUMIDITY:	≤93% RH
INSTRUMENT WEIGHT:	Approximately 600g
DISPLAY:	Real-time concentration, alarm, time, temperature, humidity, storage, communication, printing, power, Bluetooth, Internet of Things, voltage status
INTERFACE DISPLAY:	Numerical and curve display can be switched with one click. Default display interface, single or multi-in-one can be switched arbitrarily. Display maximum/minimum value.

MODEL: HA-GB-230B

Name: Multifunctional eight-in-one gas detector

Protection level:
IP68

Safety Integrity Level:
SIL2

Explosion-proof mark:
Ex ia IIC T4 Ga

FUNCTIONS FEATURES

- ✓ Eight gas detection + temperature and humidity + dust
- ✓ Temperature and humidity detection function
- ✓ Color LCD display, Chinese and English interface switching
- ✓ Built-in pump 600mL/min, can sample more than 20 meters
- ✓ Fault alarm function, sensor and pump fault prompts respectively
- ✓ Fall alarm, call for help alarm, one-click call for help
- ✓ Support multi-point calibration
- ✓ Product anti-signal interference
- ✓ GPS positioning, 4G data transmission (optional)
- ✓ Support TWA, STEL, OL data display
- ✓ IoT, wireless, Bluetooth, can connect to wireless Bluetooth printer (optional)
- ✓ Can be interconnected between the same machine
- ✓ Data recovery, selective recovery or full recovery
- ✓ Support host computer communication software (optional)
- ✓ Support extended particulate matter module, unit: ug/m3
- ✓ Magnetic charging method
- ✓ Can be equipped with telescopic sampling handle

DESCRIPTION

The HA-GB-230B, portable gas detector adopts dot, matrix, display, technology* and switches between, Chinese, and, English, interfaces, which, can, simultaneously, detect. 1-8. types of flammable and toxic harmful gases. It adopts a group-type sensor element, which, can, be replaced, with, different, sensor, types anytime, and, anywhere. The, detection, results* are displayed on the screen simultaneously. The, HA-GB-230B, multi, gas detector, is equipped, with, a, English, LCD, display interface, and audio and visual alarm* prompts, which* can adapt to* concentration* monitoring, in, more complex environments.

Multi-function at a glance

CHEMICAL PLANT

STORAGE

GAS

BREW

FOOD MANUFACTURER

LABORATORY

OIL

COAL MINE

Configurable gases

CO, CO2, H2S, O2, NH3, SO2, etc.

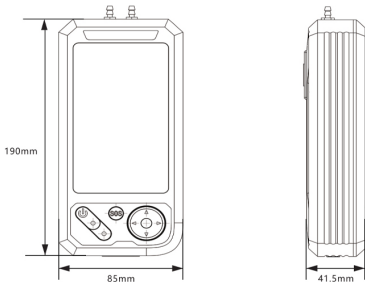

Sensor types

catalytic, electrochemical, infrared, PID, etc.

PRODUCT DETAILS DISPLAY

- High-performance sensor
- Simple installation
- LCD
- Two-level alarm
