MODEL: HA-GB-200B [Name: Built-in Pump Gas Detector]

MODEL: HA-GB-200B Name: Built-in Pump Gas Detector

DETECTION MODE:	pump-suction type
SENSOR TYPES:	catalysis, electrochemistry, PID, infrared
ALARM METHODS:	sound/light/vibration/display
DISPLAY:	LCD
RESPONSE TIME:	<20s
ERROR:	±3% FS
WORKING ENVIRONMENT:	-20~50℃, < 95%RH(no dew)
CHARGING TIME:	<6h
WORKING HOURS:	> 8 hours continuous (non-alarm standby state)
SENSOR LIFE:	2 years (electrochemistry)
SHAPE SIZE:	178*75*47mm
WEIGHT:	About 400g

MODEL: HA-GB-200B
Name: Built-in Pump Gas Detector

Protection level:
IP68

Safety Integrity Level：
SIL2

Explosion-proof mark:
Exd IIC T4 Gb

FUNCTIONS FEATURES

- 2.4 inch high definition full-color view IPS industrial screen
- Can detect 1-4 gases at the same time
- 5 gases detector can be customized
- Intrinsically safe circuit design
- Built-in self-priming pump
- Dust-proof, explosion-proof and waterproof design
- Intrinsically safe circuit design, antistatic and electromagnetic interference
- Built-in high-power carbon film self-priming pump, quick response time
- Time and alarms can be set
- Data storage function and can store 5000 pieces of data

Configurable gases

CO, CO2, H2S, O2, NH3, SO2, etc.

DESCRIPTION

HA-GB-200B pump suction gas detector is a multi-in-one gas detector. It can continuously detect combustible, oxygen, carbon monoxide, hydrogen sulfide and other toxic gases in ambient air, and detect up to 5 gases at the same time. This instrument is waterproof design and combine with rubber shell, to meet the harsh requirements of harsh environment. The instrument is controlled by embedded micro-computer. It has simple operation, complete functions, high reliability, multiple adaptive abilities, and is intuitive and clear with graphic and text liquid crystal display.

Multi-function at a glance

|			
CHEMICAL PLANT	STORAGE	GAS	BREW
FOOD MANUFACTURER	LABORATORY	OIL	COAL MINE

Sensor types

catalytic, electrochemical, infrared, PID, etc.

The equipment is manufactured using high-performance detection components and computer micro-control technology, combined with advanced fully automatic mounting technology.

PRODUCTDETAILS DISPLAY

- High-performance sensor
- Simple installation
- LCD
- Two-level alarm
