

Calistair

Science for healthy air.

Safer, healthier air

*Results based on tests undertaken by a famous French institute in April 2020

WORLD PREMIERE

Healthy air thanks to the new Calistair C300

The C300 is the first compact mobile decontamination unit equipped with the Calistair Technology. It destroys not only viruses, bacteria and fungi but also gases and odours present in the air.

The C300 prevents contamination airborne risks within minimum time and guarantees clean and healthy indoor air.

The decontamination solutions developed by Calistair have been successfully used in the hospital sector, for example in operation theaters, hospital rooms or in areas designed to welcome COVID19 patients.

Technical specifications of the C300

- *Ideal for rooms up to 50 m³*
- *Destruction technology efficiency tested on Coronavirus: 99,4% within 10 minutes**
- *Dimensions (W x D x H): 353 x 372 x 704 mm*
- *Weight: 27 kg*
- *Mains voltage range: 220 V - 240 V*
- *Mains frequency range: 50 Hz - 60 Hz*
- *Power consumption: 160 W*
- *Airflow rate up to 300 m³/h*
